Special Issue

Disturbed landscapes: Development of ecosystems

Edited by

R.F. Hüttl and W. Gerwin

Editorial

Disturbed landscapes—development of ecosystems
R.F. Hüttl and W. Gerwin 1

Research papers

Overland flow, erosion, and related phosphorus and iron fluxes at plot scale: a case study from a non-vegetated lignite mining dump in Lusatia
D. Biemelt, A. Schapp, A. Kleeberg and U. Grünewald 4

Reductive processes within lignite dumps—chance of a long-term natural attenuation process
N. Hoth, H. Feldmann, A. Rinker, F. Glombitza and F. Häfner 19

Assessment of biological soil quality in wooded reclaimed mine sites
W. Dunger and K. Voigtländer 32

Stand composition affects soil quality in oak stands on reclaimed and natural sites
D. Mohr, M. Simon and W. Topp 45

Development of soil microbial properties in topsoil layer during spontaneous succession in heaps after brown coal mining in relation to humus microstructure development
J. Frouz and A. Nováková 54

Soil properties in plantations of sessile oak (*Quercus petraea*) and red oak (*Quercus rubra*) in reclaimed lignite open-cast mines of the Rhineland
F. Nicolini and W. Topp 65

Soil development and properties of microbial biomass succession in reclaimed post mining sites near Sokolov (Czech Republic) and near Cottbus (Germany)
M. Šourková, J. Frouz, U. Fettweis, O. Bens, R.F. Hüttl and H. Šantrůčková 73

Accumulation and properties of soil organic carbon at reclaimed sites in the Lusatian lignite mining district afforested with *Pinus* sp.
U. Fettweis, O. Bens and R.F. Hüttl. 81

Effectiveness of arbuscular mycorrhizal fungal (AMF) strains in colonisation of plants involved in phytostabilisation of zinc wastes
E. Orłowska, P. Ryszka, A. Jurkiewicz and K. Turnau 92

Decomposition of plant material as an indicator of ecosystem disturbance in tropical land use systems
S. Hauser, E. Gang, L. Norgrove and M. a Birang. 99

Regular Issue

Soil endemism and its relation to soil formation theory
J.G. Bockheim 109
Soils developed on volcanic materials in the island of Thera, Greece
N.K. Moustakas and F. Georgoulias 125
Incorporating microorganisms as decomposers into models to simulate soil organic matter decomposition
C. Fang, P. Smith, J.U. Smith and J.B. Moncrieff 139
Quantification of physical properties of dredged sediments during physical ripening
J. Vermeulen, S.G. van Dijk, J.T.C. Grotenhuis and W.H. Rulkens 147
Allophane, aluminum, and organic matter accumulation across a bioclimatic sequence of volcanic ash soils of Argentina
P. Broquen, J.C. Lobartini, F. Candan and G. Falbo 167
Soil enzyme activities suggest advantages of conservation tillage practices in sorghum cultivation under subtropical conditions
A. Roldán, J.R. Salinas-García, M.M. Alguacil, E. Díaz and F. Caravaca 178
Changes in clay-associated organic matter quality in a C depletion sequence as measured by differential thermal analyses
A.F. Plante, M. Pernes and C. Chenu 186
Polycyclic aromatic hydrocarbons contamination in subsoil from outskirts of Beijing, People's Republic of China
L. Ma, S. Chu, H. Cheng, X. Wang, X. Liu and X. Xu 200
An extended X-ray absorption spectroscopy study of copper(II) sorption by oxides
T.W. Chang, M.K. Wang and L.Y. Jang 211
Soil aggregate stability and ^{13}C CP/MAS-NMR assessment of organic matter in soils influenced by forest wildfires in Çanakkale, Turkey
Y. Kavdır, H. Ekinci, O. Yüksel and A.R. Mermut 219
Occurrence, formation, and micromorphology of gypsum in soils from the Central-German Chernozem region
S. Dultz and P. Kühn 230
Validation requirements for diffuse reflectance soil characterization models with a case study of VNIR soil C prediction in Montana
D.J. Brown, R.S. Bricklemyer and P.R. Miller 251
Land use and landscape effects on aggregate stability and total carbon of Andisols from the Colombian Andes
N. Hoyos and N.B. Comerford 268
The relationship between fractal properties of solid matrix and pore space in porous media
A. Dathe and M. Thullner 279
